

Rayne®

Commercial Series

COMMERCIAL WATER SOFTENERS SPECIFICATIONS

Features

- Softening capacities from 60,000 through 1,200,000 grains
- Flow rates from 28 through 250 gpm
- High capacity, high flow resin
- Solid brass valve
- Fully adjustable 5-cycle control valve delivers upflow backwash, downflow brining, slow rinse, downflow rapid rinse and service
- Time clock or metered
- Time tested hydraulically balanced piston, seal, and spacer concept to pilot service flow and regeneration
- Pressure tank fabricated of fiberglass reinforced polyester resin formed into a single piece, totally seamless corrosion proof unit
- Hardwater bypass
- Easy to install and service
- No special tools needed to service
- Cost effective with high efficiency operation

Brine system

- Corrosion resistant polyethylene construction tank including cover
- Adjustable salt dosage
- Safety shut-off

Optional Features

- Solid state timer with environmental enclosure
- Expandable up to 4 units
- Demand flow
- No hardwater bypass standard on multiple units
- Earthquake Zone 4
- ASME code tanks

Commercial Application

With the application of a Rayne Commercial Water Softener, you can begin to experience the benefits of soft water. These benefits include reduced energy consumption, reduced repair costs, reduced need for special chemicals for boilers and steam - handling equipment. The service life of linens, clothing, fixtures and appliances is noticeably extended. The following is a list of applications where Rayne Commercial water softeners are in use:

- Restaurants
- Health Clubs
- Beauty Salons
- Motels / Hotels
- Resorts
- Condominiums
- Schools
- Hospitals
- Nursing Homes
- Factories
- Laundries
- Office Complexes
- Apartments
- Car Washes
- Farms
- Dairies
